

Participants had the opportunity to explore the project's key results, discuss lessons learned and identify opportunities for further collaboration and exploitation beyond the project's lifetime.

To capture the highlights of the day, the consortium has produced a dedicated **Final Event Video**, offering a concise overview of the project's impact, the voices of its partners and **the legacy that MaDiTraCe leaves for the European raw materials ecosystem**.

Watch the MaDiTraCe Final Event Video:

Sharing Knowledge

Knowledge transfer has been a priority throughout the project. To support learning and capacity building, the consortium has developed:

- 8 communication videos, including thematic presentations, webinars and project highlights, making MaDiTraCe results accessible to a broad audience. **Check our YouTube channel!**
- 2 free e-learning modules covering key topics related to material traceability, digital solutions and responsible supply chains. The course is open to anyone interested in expanding their knowledge and can be completed online at your own pace.

New Ways to Tell the Story

To explore project topics in a more engaging format, MaDiTraCe launched the **MaDiTraCe Talks Podcast**, available on YouTube and Spotify.

The series currently features three episodes dedicated to material traceability and responsible supply chains, bringing together experts from several consortium partners to discuss challenges, innovations and future perspectives.

Join our scientific community

Knowledge should remain accessible long after a project comes to an end. That is why **MaDiTraCe has created its dedicated Zenodo Community**, providing a permanent open-access repository for the project's **public deliverables, scientific publications and**
