

Be at the heart of MADITRACE

Connect with MaDiTraCe in Zenodo

Explore our scientific publications and public deliverables available on our dedicated Zenodo community page. This open-access resource ensures that our research is available to all stakeholders and contributes to advancing traceability in raw materials.

JOIN THE COMMUNITY

What do consumers think about traceability?

Our partners at Montanuniversität Leoben are conducting a 10-minute anonymous survey on how people perceive traceability in electronic products.

Your feedback helps shape future sustainable solutions, and you can win one of three virtual gift cards!

Project Meetings and Internal Events

3rd Consortium Meeting – Essen, March 2025

The MaDiTraCe consortium held its third project meeting in Essen, Germany, hosted by DMT GROUP. The meeting focused on reviewing progress and planning the final steps of the project, highlighting the importance of collaboration across partners to meet project objectives.

MaDiTraCe OPEN Event – Pioneering Innovation in Mineral Traceability

On March 12th, MaDiTraCe hosted a public event at DMT's facilities, bringing together industry leaders, researchers, and sustainability experts to explore the future of responsible sourcing.

Workshop: Machine Learning Meets Critical Raw Material Traceability

A technical workshop was held in BRGM last April together with partners from CEA, GTK, DMT GROUP, Montanuniversität Leoben, Metso, and Spherity to deep dive into: the feature engineering and data completion, machine learning models for material classification and Digital Product Passport development.

Lapland Workshop – OECD Conference

ICAMCyL Foundation organized a workshop last June in Lapland as part of the OECD Conference. The session gathered international experts to exchange ideas on innovative technologies and strategies for building a transparent, responsible, and sustainability-driven supply chain—fully aligned with MaDiTraCe's mission.

MaDiTraCe on the International Stage

IRTC – International Round Table on Materials Criticality - Ljubljana

Our project was represented by partners from BRGM and Leiden University, who actively contributed to key discussions on how to translate EU critical raw materials policies into practical implementation.

NWO NAC 2025 – Dutch Earth and Environmental Sciences Conference

Leiden University presented MaDiTraCe's approach to geochemical traceability at this national conference held in Noordwijkerhout, The Netherlands.

EIT RawMaterials Summit- Brussels

MaDiTraCe project was represented at a dedicated booth in Europe's leading raw materials innovation event, Our partners from DMT, ISMC, and BRGM together with EIT RawMaterials collaborated to showcase our work and foster dialogue with the raw materials community.

ISIE 2025 – Singapore

Leiden University presented the work on "Digital Product Passports for the Fair and Sustainable European Energy Transition", showcasing MaDiTraCe's contribution. This was a valuable opportunity to share the project's approach beyond Europe, engaging with an international audience interested in digital tools for sustainability and circular economy practices.

Goldschmidt 2025- Prague

MaDiTraCe partners from BRGM, GTK, Ghent University, Leiden University, and Montanuniversität Leoben presented cutting-edge research on mineral fingerprinting and isotopic analysis. The project also featured in a dedicated poster session, promoting engagement with the global geochemical community.
